- 24b. Section 508 compliance: N/A
25. Data Universal Number System (DUNS) number: 829445431
26. Notification regarding registration in Central Contractor Registration (CCR) database: CAGE Code 3BDA8

C-CAT, INC.
LABOR CATEGORY DESCRIPTIONS

Category: 1 Program Manager

Responsibility: Organizes, directs and coordinates planning and production of all contractor's contract support activities. Meets with management personnel, contractor managers, and customer representatives. Formulates and reviews strategic plans and deliverable items, determines contract costs, and ensures conformance with standards. Assigns, schedules, and reviews work of subordinates. Explains policies, procedures, purpose and goals of the organization to subordinates.

Experience: Eight (8) years experience and possess previous Project Manager experience. Specialized experience includes: project development throughout duration of project, expertise in the management and control of funds and resources using complex recording mechanisms, demonstrated capability in managing multi-task contracts and/or subcontracts of various types and complexity.

Education: Bachelor's Degree in Engineering, Computer Science, Information Systems or related discipline or 10 years equivalent experience in a technical discipline.

Category: 2 Project Manager

Responsibility: Provides competent leadership and responsible program direction through successful performance of a variety of detailed, diverse elements of project transitioning. Schedules and assigns duties to subordinates and subcontractors and ensures assignments are completed as directed. Enforces work standards and reviews/resolves work discrepancies to ensure compliance with contract requirements. Interfaces with the contractor's Program Manager as well as Government management personnel including, but not limited to, the Contracting Officer and the Contracting Officer's Technical Representative. Reports in writing and orally to contractor management and Government representatives.

Experience: Six (6) years experience and possess previous task leadership experience. Must be familiar with government policies and procedures and be experienced in technical leadership. Must be capable of planning and coordinating complex information systems projects.

Education: Bachelor's Degree in Engineering, Computer Science, Information Systems or related discipline or 7 years equivalent experience in a technical discipline.

Category: 3 Telecom Engineer

Responsibility: Investigates potential client needs and requirements. Designs advanced telecommunications networks including complex routing, ISDN T-1/PRI and engineering traffic capacity. Interacts with client and internal staff during the investigative period, design period, and duration of project.

C-Cat, Inc

GS-35F-0286P; GSA Authorized Price List

Page 5

Experience: Eight (8) years experience in telecom industry with a successful history of telephone integration. Knowledge of PBX and Key systems is required.

Education: Bachelor's Degree in Engineering, Telecommunications or related discipline or 6 years equivalent experience in a technical discipline.

Category: 4 Technical Writer/Graphic Designer

Responsibility: Collects, prepares and organizes information required for preparation of operations and maintenance manuals, proposals, reports, Gantt charts, and drawings. Must have working knowledge of Microsoft Project, Visio, AutoCAD and Microsoft Office Suite products.

Experience: Three (3) years experience in telecommunications industry with an thorough knowledge of cable plant documentation.

Education: Bachelor's Degree in English, Literature, Graphic Arts or related discipline or equivalent experience in a technical discipline.

Category: 5 Administrative Assistant

Responsibility: Provides technical assistance support to technical editors, illustrators/draftsmen, publication producers and project personnel. Provides administrative services support in areas of acquisition and logistics, telecommunications, and information technology. Must be proficient in Microsoft Office Suite.

Experience: Two (2) years experience in administrative assistance. Knowledge of telecommunications industry helpful.

Education: High School Diploma or GED.

Category: 6 Subject Matter Expert I

Responsibility: Performs analytic work in support of systems engineering or planning activities, including the development of preliminary and detailed functional analysis required for ADP, Telecommunications and Video systems. Subject matter functional expertise provided includes areas such as inventory management, supply, maintenance, transportation, personnel, financial management, as well as technical proficiency.

Experience: Five (5) years applied experience in specific area of expertise including functional experience with relevant processes and ADP, Telecommunications and Video systems.

Education: Bachelor's Degree in Engineering, Science, Managerial, Business, or related discipline or 7 years equivalent experience in a technical discipline.

Category: 7 Technology Designer I

Responsibility: Designs advanced telecommunications networks including Networking, Cable Plant, Telecommunications and Video systems. Performs site surveys, needs analysis and product suitability for systems design.

Experience: Four (4) years experience working with cable plant, Networking, ADP, Telecommunications and Video systems. Must be familiar with EIA/TIA, NEC, and IEEE standards, as well as OSHA regulations as well as possess knowledge with bridges, routers, gateways, FDDI, and UNIX, NOVELL or Windows operating systems.

Education: Bachelor's Degree in Computer Science, Information Systems, or related discipline or 5 years equivalent experience in a technical discipline.

Category: 8 Cable Project Supervisor

Responsibility: Responsible for all on-site activities for the installation of a communications/network cable subsystem at the specific contracted facilities. Participates in initial site surveys and manages on-site installation to include: recruiting employees, training, supervising multiple installation crews to implement cable design plans consistent with EIA/TIA, NEC, BICSI and IEEE standards, as well as OSHA regulations.

Experience: Five (5) years experience in a task related field that include planning, development, integration, implementation, and acceptance testing for a communications/network cable subsystem consistent with all industry standards. Experienced in managing several projects that consist of 1,000 drops or more in a campus environment. Experienced in managing multiple crews, consisting of cable techs (skilled laborers), senior cable techs (terminating, testing, punch down, etc.), and lead cable techs (supervision, termination, testing, and troubleshooting).

Education: Bachelor's Degree in Engineering, Computer Science, Telecommunications or related discipline or 5 years equivalent experience in a technical discipline.

Category: 9 Lead Fiber/Cable Tech

Responsibility: Works under supervision Cable Supervisor. This position will dress, terminate, test and certify CAT-5e and CAT 6 cable installations. Also prepare, pull and/or remove cable including set-up and clean-up activities for each work area.

Experience: Two (2) years of overall experience in the field with specialized training in dressing, terminating and testing CAT-5e and CAT 6 cable and knowledge of procedures necessary to certify CAT-5e and CAT 6 cable to meet industry standards. Ability to work with basic and advanced installation and test equipment. General knowledge of cable preparation and installation techniques. Familiarity with cable plant documentation, labeling, equipment racks, and hardware.

Education: High School Diploma or GED. Technical training.
